

Setup Shadow Socks Mobile VPN - iDevices

From your AppStore Store, download the Waterdrop-Shadowsocks client for iOS. It has an icon that looks like this:

Once installed on your iDevice, open up Waterdrop app.

1. Click on “+” sign (in the red circle on the picture):

2. For the “Remarks” add:

LosAngeles-SS1.US

3. For the “Server” add:

107.181.166.116

4. For “Port” add the port you have received from helpdesk@gtt.tools (If you have not have this information it can be obtained by writing to helpdesk@gtt.tools)

5. For “Password” add the password you have received from helpdesk@gtt.tools (If you have not have this information it can be obtained by writing to helpdesk@gtt.tools)
6. For “Encryption” leave
AES-256-CFB

Waterdrop	Add Config	Save
Remarks	LosAngeles-SS1.US	
Server	107.181.166.116	
Port	1234	
Password	•••••	
Encryption	AES-256-CFB	>
Mode	Auto Proxy Mode (Default)	

7. Once you finish setting up this server click on “Save” button.
8. Click on “Allow” on the new window that will popup:

9. Slide “Connection” bar (in the red circle on the picture) in order to connect:

10. Once you successfully connect you will get “VPN” sign on the top left corner of your iDevice:

11. Slide “Connection” bar back in order to stop VPN.

Check that you actually are connected by browsing to:

You can also add our other Shadow Socks servers:

NewYork-SS1.US server
Address: 192.3.32.130

Hetzner2-SS1.Germany server
Address: 136.243.230.186

London-SS1.UK server
Address: 185.157.233.49

London3-SS1.UK server
Address: 103.219.22.22

SanJose2-SS1.US server
Address: 209.141.60.32

Seattle2-SS1.US server
Address: 23.226.231.190

Nevada1-SS1.US server
Address: 209.141.55.192

Montreal3-SS1.Canada server
Address: 158.69.196.42

NewYork6-SS1.US server
Address: 162.220.241.62

In general, you should setup and use the servers that are geographically closest to you as that will provide you the best internet speeds. If you are in Asia or South America, use the west coast US servers. For Europe and Africa users, connect to the Europe or east coast US servers. However, you are welcome to connect to whichever one provides you with the best and fastest connection for you.
